Description

The Sentry 631BH-D/N is a high quality 1/3" color CCTV camera designed for use indoors or outdoors (requires housing outdoors) where video is required at low illumination levels as well as at normal daylight or artificial light illumination. The Sentry 631BH-D/N camera features a flickerless control that captures the wide and intense range of color of some light sources and adjusts the color, gain, electronic shutter control and white tracking balance to produce a good quality color picture.

Using the latest Super HAD CCD technology from Sony™, the 631BH-D/N provides 470 TV lines of resolution, in color at normal light levels, seamlessly switching to black and white down to an excellent minimum illumination level of 0.03Lux at F1.2. The 631BH-D/N has a wide operation temperature range and is not subject to distortion from magnetic fields.
