- ⚡ Multi-site remote management
- ⚡ Fast remote video transmission speeds
- ⚡ Simultaneous viewing, recording, playback and remote access
- ⚡ Up to 8 channels fully A/V synchronized
- ⚡ PTZ camera controls
- ⚡ Optional Video Matrix output card and Alarm Input/Output box

Description

The Sentry RP-Lite DVRs are real-time audio and video, high resolution, entry level DVRs supporting 4 or 8 camera inputs at very attractive prices.

The Lite Series are built using the same technology as the Sentry RP Series of DVRs (supporting up to 64 cameras) and based on its H.264 hardware compressed platform, offering a high quality PC-based solution with the same great features and remarkable video quality at a reduced price.

The Sentry RP-Lite Series provides a real-time audio and video system of up to 8 cameras without the excessive load on the system hardware typical of software compressed systems. H.264 compression provides amazing video quality, resolution up to 704 x 480, and local and remote recording can be adjusted independently, allowing for high quality locally recorded video without sacrificing remote video speed.
